FLIGHT FUNCTIONS
Artifact 1
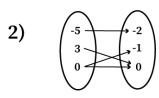

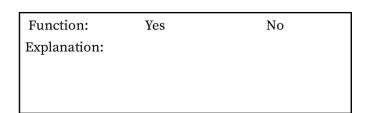

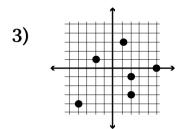

Name _____

ATC Radar Functions Assessment

As an Air Traffic Controller, you will be using many airplane tracking tools, most of which act as a mathematical function. It is critical that you are able to distinguish a function from a non-function, so you can identify errors and malfunctions to keep our skies safe!

Determine whether each display is a function. Explain why or why not.

1)

Input	Output
-12	41
-9	33
10	75
41	-16
55	10

Function: Yes   No

Explanation:

2)

Function: Yes   No

Explanation:

3)

Function: Yes   No

Explanation:

4)   (1, 5) (2, 4) (3, 1) (4, 3)

Function: Yes   No

Explanation:
